THE FUTURE BELONGS TO  
THOSE WHO ILLUMINATE IT

GENERAL CATALOGUE 2024

**esse-ci**  
LIVING LIGHT

**LIVING LIGHT,**  
DARING DESIGN

*For 40 years Esse-Ci  
has been evolving  
of the lighting design*

LIGHT AS A VOCATION, LIGHT AS AN  
EXPRESSION, LIGHT AS AN ENGINE  
OF THE CHANGE AND VALUE TO MAKE A  
DIFFERENCE FOR OUR CUSTOMERS.

We are a constantly evolving company, and our products also evolve with us. We have developed solutions capable of illuminating and enhancing any type of environment, of igniting people's emotions, of giving impetus to the growth

of an activity, to offer maximum performance while consuming less energy. But with light we can do even more: to achieve the next evolution, after all, ***we just have to have the courage to dare, we just have to imagine it.***

*Dare to be*

We design and implement lighting design solutions for indoor and outdoor spaces that combine **superior technical performance** with a modern, elegant style.

Our range of products meets the needs of lighting in the most diverse contexts of **social and working life: offices, commercial buildings, schools and universities, museums, theatres, conference rooms, retail and large distribution, specialised clinics, and hospitals**. We also intervene in the field of public infrastructure, such as **railway and metro stations**, and we contribute to the development of large architectural projects, even externally.

Dare to go  
**further**

## *Dare to be* ***expert***

— We have been in the world of lighting since 1984. In these **40 years of journey, discovery, and growth**, we have gained the experience and know-how necessary to face each new project starting from a consolidated background of technical skills.

## *Dare to be* ***innovative***

— Innovation is at the centre of our design philosophy, and it is precisely thanks to our daily commitment to **technological and stylistic research** that we are able to create solutions that are constantly evolving, increasingly high performing from a technical point of view and aesthetically refined.

## *Dare to be* ***inspired***

— We shape our design ideas by drawing inspiration from the **inputs we gather daily** from the lighting and architecture sector as well as from **collaborating with the best international design studios**.

## *Dare to be* ***specialized***

— We provide our customers with **specific expertise in architectural lighting**, which has allowed us over time to contribute to the realization of prestigious architectural projects, both indoors and outdoors.

## *Dare to be* **custom**

— The **customisation** of a product is always a major challenge: helping the customer to realise their architectural project with a **tailor-made solution** enhances our ability to evolve in tune with the market and pushes us to constantly enrich our proposal of lighting solutions.

## *Dare to be* **excellent**

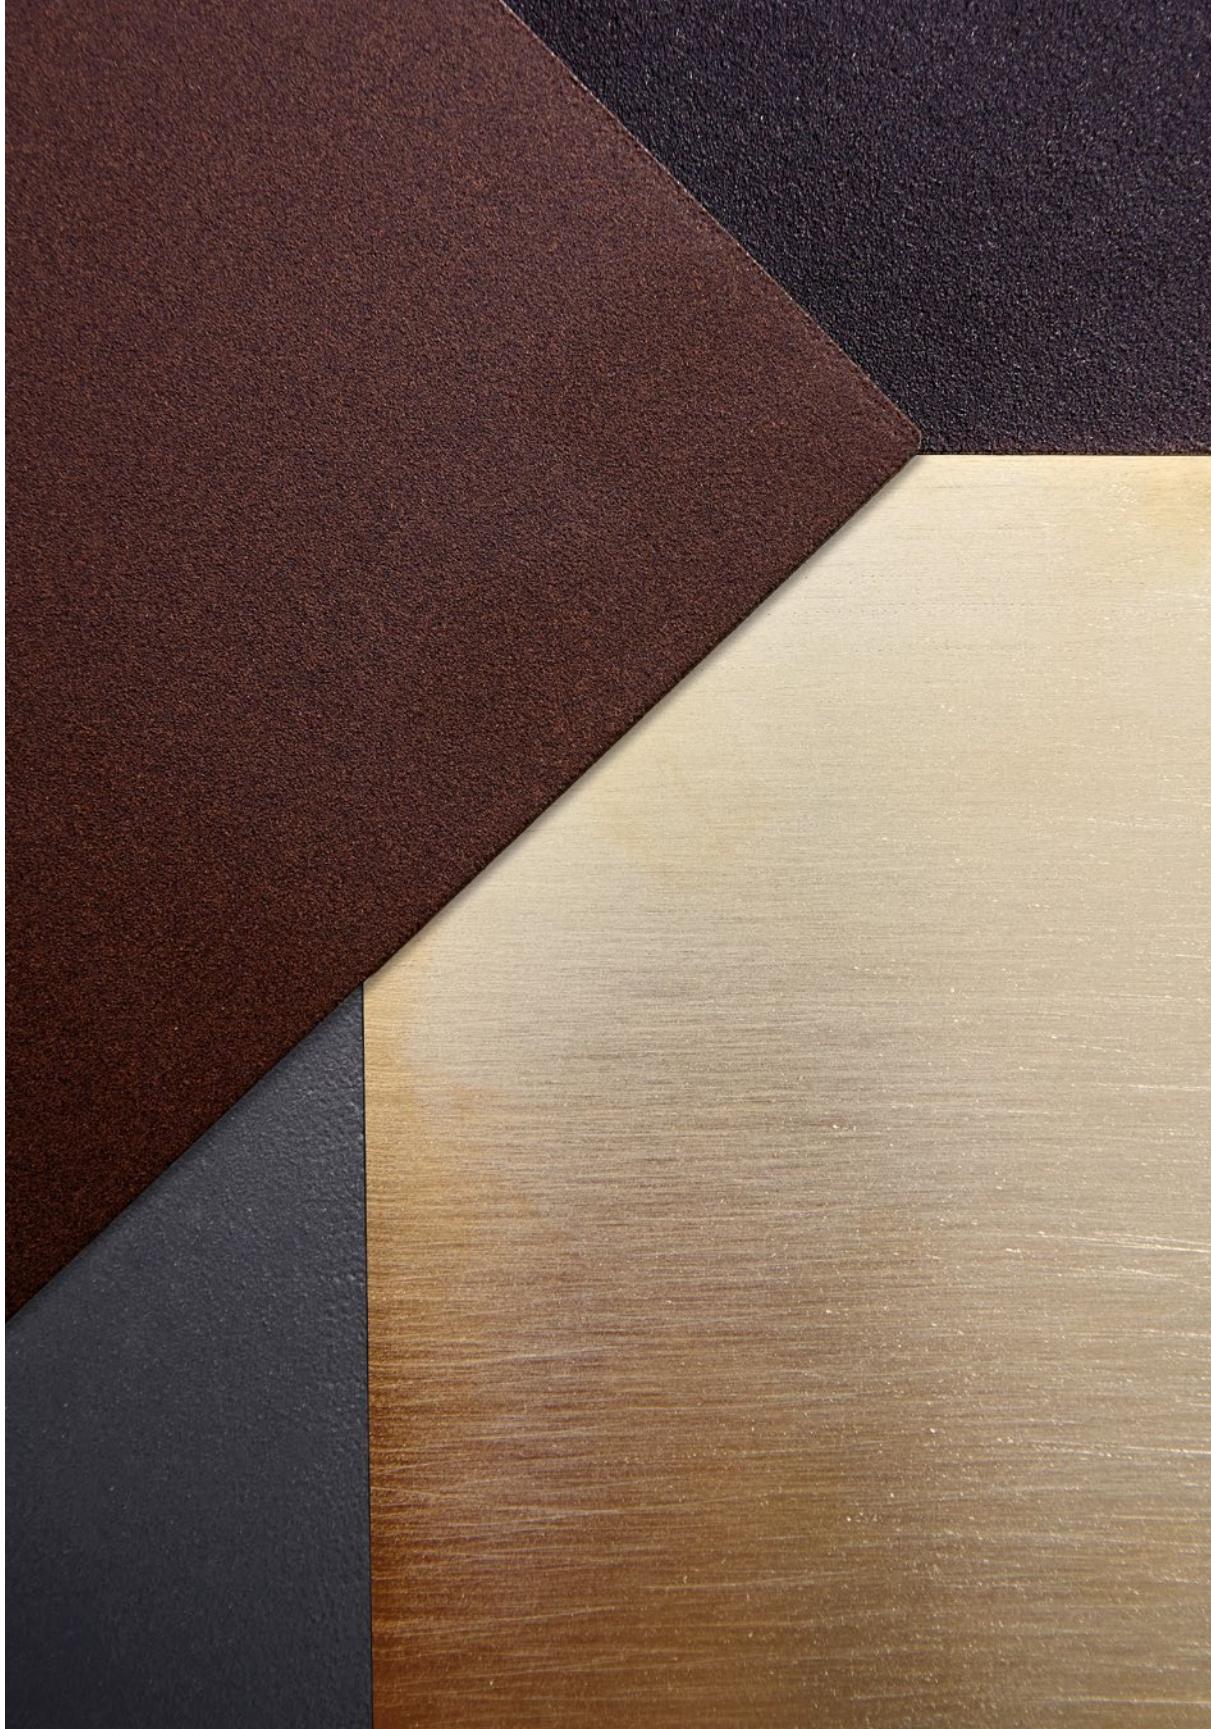

— Behind each Esse-Ci product there is the **attention to detail** and the experience of an artisan laboratory, the millimetric **precision** of the most **advanced technologies**, the **know-how** that comes from collaboration with research laboratories and universities, the guarantee of **scrupulous controls** at every step of the supply chain.

## *Dare to be* **global**

— Our light now travels **all over the world**, making Esse-Ci a globally recognized and appreciated brand. We export our proudly Made in Italy products to **Europe, Africa, the Middle East, and East Asia, all the way to North America**.

## *Dare to be* **safe**

— We are sensitive and attentive to **people's well-being**, which is why we design our solutions by choosing **the most innovative and safe technologies available**, privileging high-quality LEDs that emit light free of IR or UV radiation.

*Dare to be  
coloured*

Esse-Ci solutions allow you **to dare even with colours** and finishes to obtain a customized design to the maximum and capable of enhancing the environment in which the lighting will be installed.

**YOUR LIGHT HAS INFINITE  
CREATIVE POSSIBILITIES**

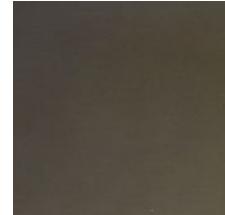

Choose how to customize your design with many combinations of colours and finishes.

## Dare to be *sustainable*

**— Looking courageously into the future for us also means recognising that the future depends on the responsible actions we, as a company, will be able to take in the coming years.**

Our commitment in this area has been measured and certified in recent months by Warrant Hub through an innovative ESG - GRI referenced scoring model that has photographed our corporate sustainability performance with the aim of highlighting the strengths, weaknesses and possible areas for improvement. Not a simple evaluation, therefore, but a strategic planning tool thanks to which we can take increasingly decisive steps in the direction of change.

## ENVIRONMENT

**Protecting the environment and the resources that the Planet offers us is at the heart of our action plan. The first goal we set ourselves is to reduce the use of virgin raw material as much as possible to contribute to a more sustainable production.**

We have long since started a virtuous path that, over the years, will lead us to progressively **increase the percentage of renewable or recycled** raw materials in our products and packaging. Already today, moreover, our articles and the **packaging** in which they are contained are almost entirely **recyclable**.

Energy management is another area where we can and want to do a lot for the environment. We have implemented a monitoring system through which we can measure the energy consumption of all our machinery and processes in order to identify any areas of waste and inefficiencies: the collection of these data allows us to plan targeted energy efficiency strategies and adopt corrective measures in order **to optimize the energy management of all our activities, thus reducing their environmental impact, as well as costs.** In the near future, we will also install a photovoltaic system thanks to which we will be able to fully cover our energy needs, without having to resort to fossil sources.

The third area of intervention concerns the optimisation of **waste management**. We have set clear targets to continue to reduce their quantity during production and at the same time increase the part of them that is destined for recycling. In this regard, we already manage to allocate a high percentage of the waste we generate to recycling, thus helping to promote the circular economy model.

## SOCIAL

**We have a responsibility not only towards the environment, but also towards all the people who are linked to the Esse-Ci world: our collaborators, our customers, the community of which we are a part.**

We have always paid the utmost attention to the **well-being of our employees**, with whom we try to build solid and lasting relationships over time, thanks to which we can become an increasingly united and strong team. We adopt the highest standards in occupational safety, taking care **to provide adequate training to personnel** and to implement all those preventive procedures that allow us to create a safe and secure working environment. In addition to security, we want to offer those who work with us real **opportunities for professional growth**, which translate into stable employment contracts for all employees, benefits and rewards based on performance, and continuous training to improve skills, with update courses for each staff member, some of which are carried out abroad.

The satisfaction of our customers is also fundamental, which is why we build a relationship based on listening and collaboration with them. We have created a dedicated communication channel through which our customers can send us reports, feedback and suggestions with the aim of helping us to continuously improve our products and services. Precisely in this regard, in 2021 we created "**Voice of the consumer**", an analysis relating to customer satisfaction: on the basis of the feedback received, we created an improvement program aimed at solving the critical issues that emerged.

As mentioned, social sustainability for us is also attention to the territory. We are committed to involving as many local suppliers as possible, thus contributing to the **economic development of our community in the name of sustainable growth**. In addition, we are involved in many other social initiatives such as sponsorships of events and sports clubs, economic support to local authorities, donations and free supplies of products and maintenance activities, collaborations and internship activities with the University of Venice.

## Dare to be *certificated*

As a company operating on a global scale, we are called to guarantee the highest levels of quality and safety, in full compliance with the regulations of the countries to which we export.

**Esse-Ci products are certified according to the most important and stringent international standards**, allowing us to be present, today, in the main markets of Europe, North and South America and Asia.

# ALPHA

ID 87

**ALPHA** is the innovative single or double emission solution for office lighting and professional areas. It stands out for the **striking and original trapezoidal design aluminum body**, that is able to enrich any environment, but also for an advanced and versatile technical section it's suitable to satisfy different design needs. The **Vertical Lens version**, based on a latest generation optical refraction system with an elegant and discreet diffusion of light, is also available in the **Plus version with UGR<16** controlled emission, thanks to polycarbonate lenses and transversal plates that prevent glare from any angle ensuring maximum visual comfort. The **Soft Emission version is available with UGR<22 optic**, ideal for crossing area and corridors, and with also the 15°-24°-36°-50° optic reflector **Spot module for accent light**, which can be integrated into a modular system.

## Features

- Direct emission
- Direct/indirect emission
- UGR<16; <19; <22
- IP 40

## Led

- 3000K/4000K
- >125 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >70.000h

## Specifications

- Built-in driver
- Double emission direct/indirect
- Vertical lens UGR<19
- Vertical lens plus UGR<16
- Satin diffuser UGR<22
- SPOT module with adjustable beam lens of 10° to 40°

## Body

- Aluminum with epoxy powder coating

## Colors

- White RAL 9003 - code B
- Black RAL 9005 - code C8

## Certifications

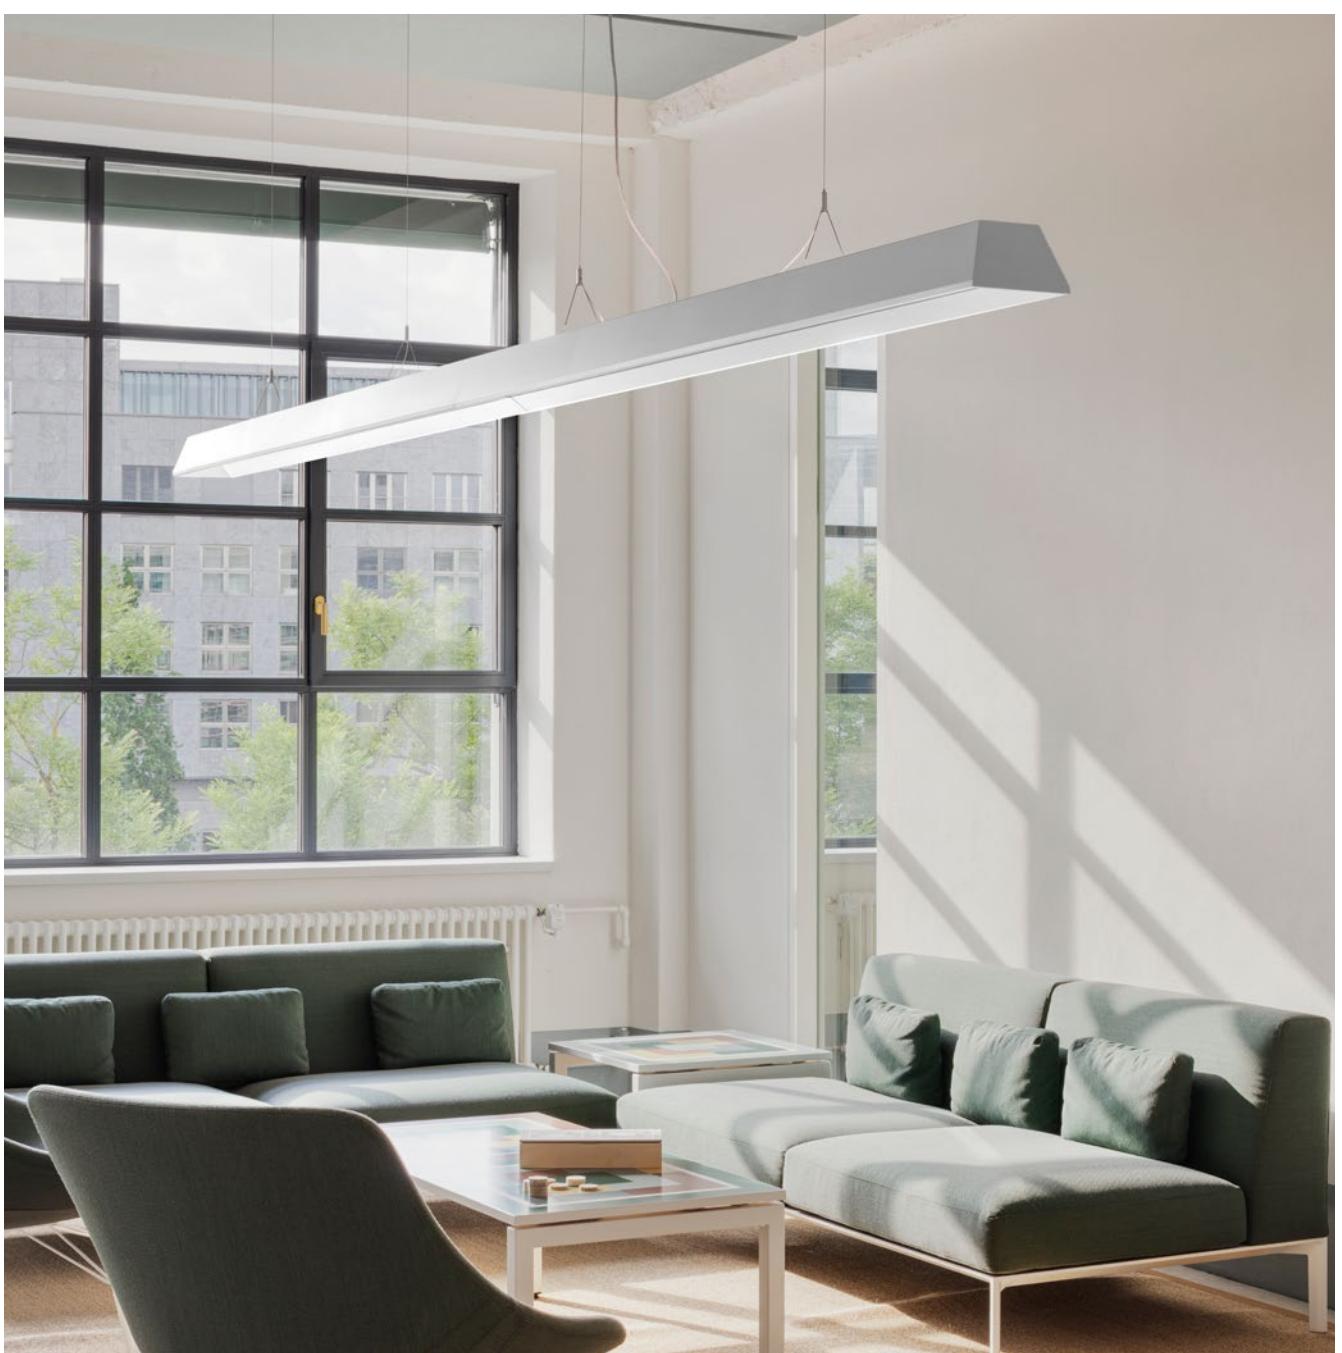

- CE Conformity
- Energy efficiency C
- 5 years warranty

## On request

- DALI - code D\*
- Bluetooth - code BT\*
- Emergency 1 hr - code EM\*
- Emergency 3 hrs - code EM3H\*
- 2700K - code K27\*
- 6500K - code K65\*
- Human Centric Lighting\*

## TECHNICAL NOTES

In the **Vertical Lens** version, the light source is not directly visible, the emission is **refracted** through an **optical lens system** that allows the light to be spread and directed in a precise and homogeneous way.

In the **Soft Emission** version, the light source is instead **shaded by an internal diffuser** that guarantees, directly and indirectly, a softer and more diffused emission.

Vertical Lens UGR<19

Soft Emission UGR<22

**Minimalism, efficiency, clean lines** melt in a complete range of solutions. These are the characteristics of **TWOS**, the new Esse-Ci profile that **reconsiders the classic and timeless lighting profile** multiplying the creative possibilities. TWOS is available in four different versions – with **microcells, diffusers, downlight or 48V integrated track** – to meet any project needs, thanks to the creative junction, the accessory that allows the connection of 2 or more bodies at different angles. Moreover, selecting **TWOS COMBO it's possible to integrate the different lighting supports into a single body** to create even more original, particular and refined visible effects.

## Features

- Direct emission
- Direct/indirect emission
- UGR<16; <19; <22
- IP 40

## Led

- 3000K/4000K
- >125 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >60.000h

## Specifications

- Built-in driver
- CLD technology (UGR<16) for environments with display screen equipment
- Satin diffuser UGR<22
- Polycarbonate lenses
- High Contrast optic
- Continuous indirect emission
- SPOT module with adjustable beam lens of 10° to 40°
- Downlight module
- 48V track module
- PMMA lenses

## Body

- Aluminum with epoxy powder coating

## Colors

- White RAL 9003 - code B
- Black RAL 9005 - code C8

## Certifications

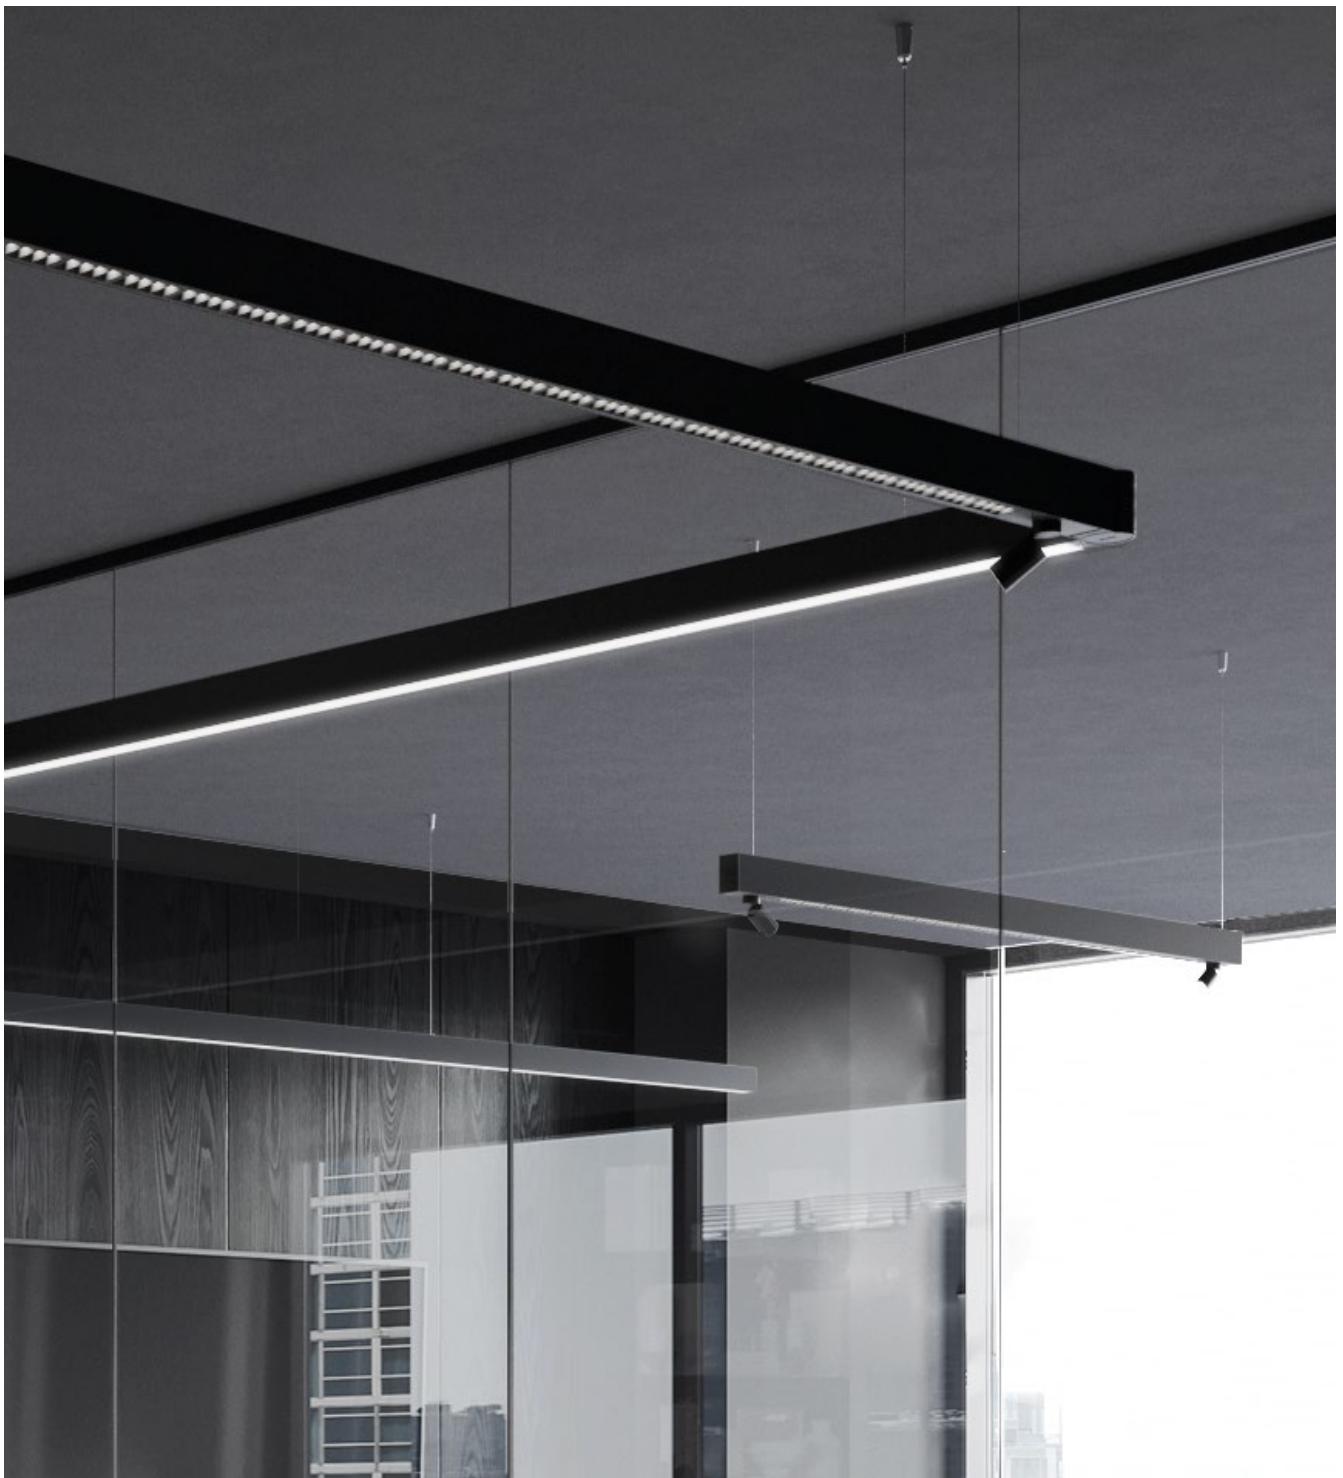

- CE Conformity
- Energy efficiency C
- 5 years warranty

## On request

- DALI - code D\*
- Bluetooth - code BT\*
- Emergency 1 hr - code EM\*
- Emergency 3 hrs - code EM3H\*
- 2700K - code K27\*
- 6500K - code K65\*
- Human Centric Lighting\*

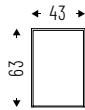

\* Where available

## TECHNICAL NOTES

**Creative junction** is an accessory studied and designed to make freer and easier continuous line installation of TWOS profiles to create unexpected geometric light solutions. The two-way version **allows a 180° rotation** both an **electrical and mechanical connection**. The accessory is available in the three-way and four-way version too.

**ETER** is the new elegant full-light compact suspension. **A monolith that ensures a homogeneous direct and indirect emission** thanks to the sophisticated optical refraction system. The flux of the single light source is partialized by the internal diffuser, ensuring exceptional performance, great competitiveness and a specific attention towards energy saving. **ETER is available with PG optic**, perfect for common areas and passageways thanks to the diffused light and its refined design, while the **innovative version with CPL optic has a UGR<16** that satisfies the need for high visual comfort of office environment. Eter synthesizes top-level performance in an ethereal body with an extremely slim profile.

#### Features

- Direct/indirect emission
- UGR<16; <22
- IP 40

#### Led

- 3000K/4000K
- >140 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >70.000h

#### Specifications

- Built-in driver
- CPL technology for UGR<16
- PG diffuser for homogeneous emission with UGR<22

#### Body

- Aluminum with epoxy powder coating
- Antistatic methacrylate optics

#### Colors

- Matte white RAL 9003 - code B

#### Certifications

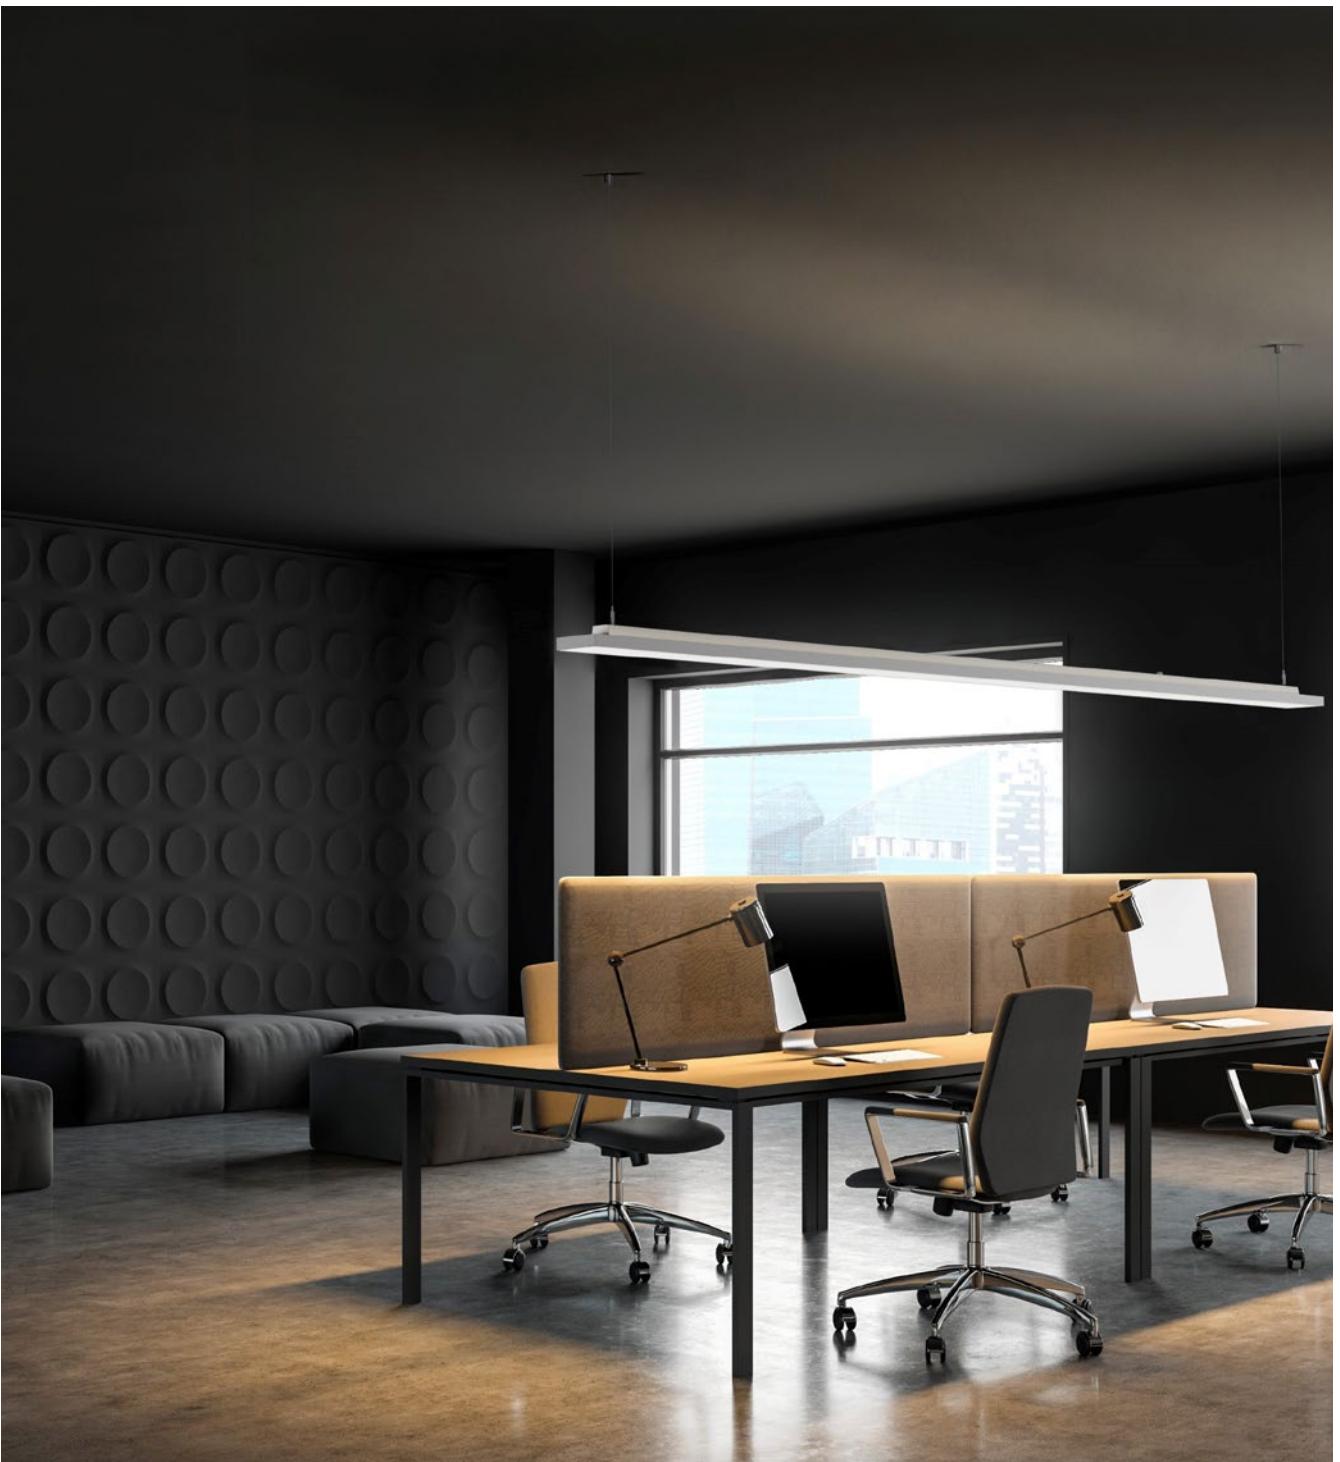

- CE Conformity
- RETILAP Conformity
- Energy efficiency D
- 5 years warranty

#### On request

- DALI - code D
- Bluetooth - code BT\*
- Emergency 1 hr - code EM
- Emergency 3 hrs - code EM3H\*

## ACCESSORIES

3 poles ceiling powered supply box. Cable length 2000mm.

**00AA16**

5 poles ceiling powered supply box. Cable length 2000mm.

**00AA165P**

Spacers kit for ceiling mount (2 pieces).

**62AA14**

Linear joint.

**62AA11**

Single wire 1500mm/3000mm long adjustable suspension kit.

**62AA13**

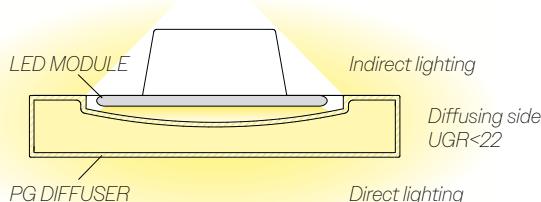

**62AA1330**

## TECHNICAL NOTES

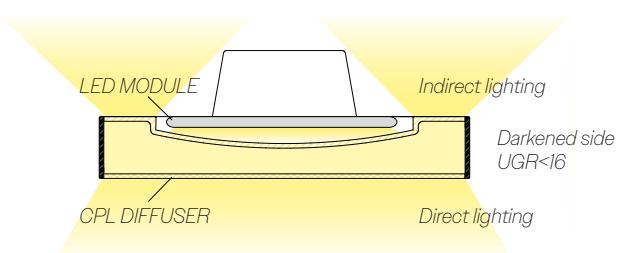

The double emission of **ETER** is achieved through a **single source**: this design allows to contain energy consumption and maintain luminous continuity. In the **PG version the side reflectors emit diffused light**, capable of illuminating the rooms in a homogeneous way.

**In the CPL version**, the innovative optics and darkened sides **concentrate the direct emission** making it **suitable for use with screen display**, while maintaining the **indirect component for ambient lighting**.

**ETER PG**

**ETER CPL**

# ARKEON 2.0

ID 46

**ARKEON 2.0** is the new profile developed by Esse-ci to be extremely flexible and high performing. A **linear design that integrates perfectly in any context** such as an office, showroom, a retail or hospitality space. Available with both **direct and direct/indirect emission**, it guarantees a seamless illumination, even for the indirect part. Different optics are available, such as the **new CLD collimated optics** and the **High Contrast optics** as well as the possibility of inserting **Spot modules** for accent lighting.

## Features

- Direct emission
- Direct/indirect emission
- UGR<16; <19; <22
- IP 40

## Led

- 3000K/4000K
- >125 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B20 >80.000h

## Specifications

- Built-in driver
- Double emission direct/indirect
- CLD technology (UGR<16) for environments with display screen equipment
- Satin diffuser UGR<22
- Asymmetrical polycarbonate lens
- High Contrast optic
- Continuous indirect emission
- SPOT module with adjustable beam lens of 10° to 40°

## Body

- Aluminum with epoxy powder coating

## Colors

- White RAL 9003 - code B
- Black RAL 9005 - code C8

## Certifications

- CE Conformity
- RETILAP Conformity
- Energy efficiency C
- 5 years warranty

# BRIGHT

ID 80

**BRIGHT's** body is made of a **harness holder and a light module that integrates LED and diffuser**.

This allows the accessories to be fixed without any position constraint, while the integration between LED and diffuser guarantees inaccessibility to the optical compartment. The electrical connection between the light module and the battens is guaranteed by quick connectors that prevent polarity inversions and false contacts, thus preserving the LED technology.

**Features**

- Direct emission
- Direct/indirect emission

4 ways electrified joint  
(dim: 81,6x81,6mm).

**80AA07**

Kit for wall installation.

**80AA15**

Kit for wall installation.  
Bright 6W/12W.

**80AA151M**

# GROOVE

ID 43

**GROOVE** is a competitive and versatile profile **suitable for recessed, surface and suspended mounting**. Produced from painted extruded aluminium in a wide range of lengths and fitted with the latest LED technology for direct or bi-directional light distribution. With its choice of optics, GROOVE is a perfect **high performance ambient lighting solution** for commercial applications and, with the additional powerful adjustable accent **spotlights**, it is also suitable for retail and educational applications. A **wide range of accessories** are available, making GROOVE an extremely flexible design tool for architects and lighting designers.

## Features

- Direct emission
- Direct/indirect emission
- UGR<19
- IP 40

## Led

- 3000K/4000K
- >105 lm/W
- CRI>90
- Eye safety: RG0/RG1

# PHORMA

ID 89

**PHORMA** is the new system developed to create **free compositions**. With PHORMA it is possible to easily create perimeters that are **modulated on the geometry of an environment** or a furniture and that perfectly illuminate thanks to **PG optics** with diffused emission or **DPL** with controlled UGR. Available both in **direct and double emission** (direct/indirect) version.

## Features

- Direct emission
- Direct/indirect emission
- UGR<19; <22
- IP 40

## Led

- 3000K/4000K
- >107 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B20 >80.000h

## Specifications

- Driver integrated in the linear elements
- Driver included (but not integrated) in the curved elements
- PG diffuser in satin methacrylate for homogeneous UGR<22
- DPL diffuser with homogeneous and controlled emission UGR<19

## Body

- Aluminum with epoxy powder coating

## Colors

## ACCESSORIES

End caps kit (add + 4mm to body length).

**89AA09**

3-5-7 poles ceiling powered supply box.  
Cable length 2000mm.

**00AA16**  
**00AA165P**  
**00AA167P**

Single adjustable suspension kit.  
Length: 1500/3000mm.

Ceiling mount kit.

**89AA14**

Curved-curved concave joint. Indicate the x and y radius of the elements to be joined.

**89AAxxxyCC**

Curved-curved convex joint. Indicate the x and y radius of the elements to be joined.

**89AAxxxyCS**

Curved-line joint. Indicate the x radius of the elements to be joined.

**89AAxxCL**

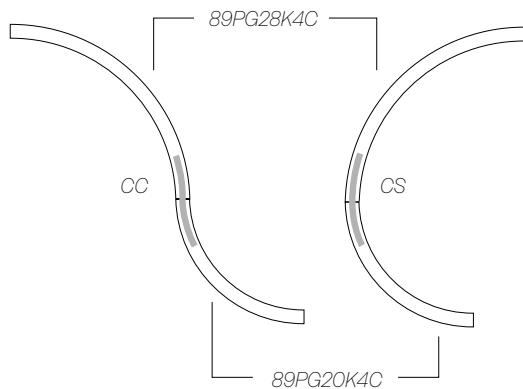

Line-line joint.

**89AA11M**

## TECHNICAL NOTES

### CODE CREATION FOR CURVED-CURVED JOINTS

1. Define the radii of the 2 elements to be joined:  
e.g: **89PG20K4C** with radius 930mm  
**89PG28K4C** with radius 1296mm
2. Define whether the joint is concave (**CC**) or convex (**CS**)
3. Create the code as follows, first placing the minor radius and then the major:  
**89AA9301296CC** (if concave)  
**89AA9301296CS** (if convex)

# SEMPlice LED

ID 67

**SEMPlice LED** is an **innovative lighting solution** suited to a wide range of interior applications including **commercial, leisure and retail environments**. Never before has a product been so versatile, with suspended or directly surface mounted versions available for wall and ceiling mounting. They can be installed individually, continuously mounted or even pattern formed using the tailored range of accessories. Its **uniqueness is a scattered emitted light including the ends**, thanks to the integrated LED technology and translucent end caps. A broad collection of matching products can be implemented for free standing and EU track mounting, giving the user continuity of product and complete design freedom in a project.

## Features

- Direct/indirect emission
- UGR<22
- IP 40

## Led

- 3000K/4000K
- >90 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B20 >80.000h

## Specifications

- Integrated driver
- PG optics for soft and homogeneous emission with no shadow areas
- EB optics for side emission

## Body

- Shockproof, antistatic technopolymer with an exclusive paint treatment that guarantees a homogeneous "soft" emission over the entire surface. The ending and junction accessories are made of the same materials, with an invisible coupling fastening system

\* Where available

## Certifications

- CE Conformity
- RETILAP Conformity
- ETL Conformity
- Energy efficiency C
- 5 years warranty
- ETL certification

## ACCESSORIES

Single adjustable suspension kit.  
Length: 1500/3000mm.

**67AA13**  
**67AA1330**

Spacers kit for wall/ceiling mount.

**67AA14**

3-5 poles ceiling power supply box.  
Cable length 2000mm.

Electrified linear joint with total emission for continuous rows installation.

**67AA11LED**

Internally electrified creative joint for horizontal change of direction.

**67AA05**

Internally electrified 90° joint for vertical change of direction.

**67AA05V**

# DIAMANTE

ID 82

**DIAMANTE** has been created as a result of Esse-Ci's passion for unique technical design. It's a **peculiar product that achieves optimum light control with high performance and flexibility** from a single fixture. The DPL diffusion technology for controlled UGR combined with the additional black diamond louvre results in unparalleled glare control, making it the **perfect product for any office application**. Available as a **stand-alone** product, configurable as a system **or in the FREE version**, DIAMANTE allows the use of the illuminated modules in a versatile way, coupling them with lamp bodies of different sizes.

#### Features

- Direct emission
- Direct/indirect emission
- UGR<19
- IP 40

**ENDO** is the latest addition to the range of Esse-Ci profiles: **extremely versatile with a fully customizable configuration**. The minimal design makes it the best linear lighting solution for integrating light in architectural structures, while the perfect mix of performance and the housing versatility of the **LED strip allows direct, indirect or asymmetrical emission**. Thanks to the **numerous accessories**, such as blind modules, mini spotlights and special joints, ENDO allows to create countless configurations of endless light lines, whether they are recessed, ceiling mounted or suspended.

## TECHNICAL NOTES

### EXAMPLES OF POSSIBLE CONFIGURATIONS

# ENDO DISPLAY

ID 55

The embody of light and architectural structure reaches the maximum of simplicity and versatility with **ENDO DISPLAY**. This **recessed linear solution** is equipped with a micro edge that makes **extremely practical and quick the installation** even in the most creative setting, leaving the full freedom to design. **ENDO DISPLAY** is available in **three versions (UGR<22** satin diffuser, **UGR<22 semi-recessed** satin diffuser, **UGR<16** microcell optic) and with Spot module for accent light.

# PROFREEL

ID 83

**PROFREEL** is a fixture series for ceiling, suspension or frameless recessed mounting, **fully customizable**

**directly on site.** The device consists of an aluminum body supplied in lengths of up to 3 meters, electronic components (driver and LED strip), that can be selected according to the site needs. The PG methacrylate diffuser is supplied in a 10m coil to be measured and cut on site to realize bright **lines of perfectly homogeneous light without interruptions.** **PROFREEL** allows the application of LED strip even on top of the profile, to achieve bi-directional light distribution. The possibility to integrate the driver inside of the lamp body is its main advantage: this way the installation is simplified and the aesthetics improved.

## Features

- Direct emission
- Direct/indirect emission
- UGR<22
- IP 20; IP 40

## Led

- 2700K/3000K/4000K/

## TECHNICAL NOTES

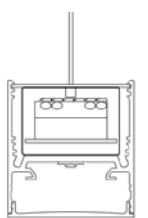

PROFREEL lets full freedom to customize both the length and the luminous shapes you want to create. Horizontal and vertical angles are obtained with extreme simplicity by sectioning the profile and the diffuser directly on site.

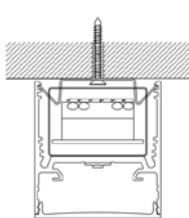

### FEW EASY STEP

1. Define and select the length of the system
2. Choose the power/flux and the type of LED Strip
3. Match the correct driver and linking connectors
4. Choose the diffuser and accessories for installation

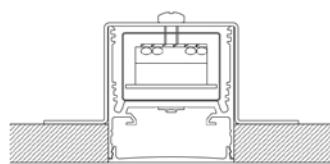

### INSTALLATION EXAMPLES

# OVVIO DISPLAY LED

ID 40

**OVVIO DISPLAY LED** is the recessed luminaire for plasterboard ceilings with a **compact design** and a **framebit of 4mm**. Fastening system and quick electrical connection facilitate the installation. Low and high power LED modules allow to always find the best lighting solution. The maximum length of the profiles is over three metres, with a 280mm modularity and corner elements for wall or ceiling mount.

## Features

- Direct emission
- UGR<22
- IP 40

## Led

- 3000K/4000K

**BEN** is the **universal luminaire for wall, ceiling, suspension or recessed installation** with bodies made entirely of **aluminum**, without welding. The IP 40 version offers **both satin and microprismatic diffusers** with DPL UGR<19 technology. The mid-power LED on circular boards avoid the creation of shadow areas and are connected to the internal supports via quick connectors, for easy electrification.

# PIPE LINE

ID 86

**Stylish and extremely minimal design** combined with high performance make **PIPE LINE** a direct emission suspension suitable for illuminating any setting: office, retail, or residential environments. The remote driver makes installation extremely flexible. The **PG optics**, providing uniform emission, enable the illumination of spaces with diffuse light, while the **High Contrast microcell optics** with superior glare control (**UGR<16**) is the perfect solution for desks and workstations.

# DIMPLES

ID 48

**DIMPLES** is a **recessed, suspended or ceiling mounted installation** fixture, characterized by its very **shallow profile** height of just 38mm, with integrated drivers and unique aesthetics. The individual **microcells** **contain optics** that can either be specified for office applications requiring low glare, or for general lighting applications with broad lateral light distribution for core areas, including meeting rooms and breakout spaces. **DIMPLES** is **offered in a wide range of outputs and sizes**, for direct only or bidirectional light distribution, making it extremely versatile and a huge step beyond the conventional LED lit lighting panels.

## TECHNICAL NOTES

### OPTICS

PC version with body-diffuser in satin ABS and  
CUT-OFF effect diffuser for glare control.

PG version with additional frosted PC coplanar screen.

### CONNECTION

The installation of devices is immediate thanks  
to the practical connector located in the back.

**LITE** is a luminaire with a minimal design and a compact section, **for ceiling and suspended mount**.

The power supply electronics are integrated into the body, while the closed optical system is protected against dust and accidental damage during installation. **The high efficiency LED modules** ensure unmatched homogeneity without precluding any light output. The **quick connection system** facilitates and speeds up the **installation process**.

**LITE** is the recessed installation luminaire characterized by its **minimal design and compact section**. The power supply electronics are integrated inside the body, while the closed optical system is protected against dust and accidental damage during installation. **The high-efficiency LED modules** ensure an elevated homogeneity without precluding light output.

#### Features

# DIMPLES

ID 48

RECESSED

**DIMPLES** is a recessed, suspended and ceiling mounted installations fixture, characterized by a very **shallow profile** height of just 38mm, with integrated drivers and **unique aesthetics**. The individual **microcells contain optics** that can either be specified for offices applications requiring low glare, or for general lighting applications with broad lateral light distribution for core areas, including meeting rooms and break-out spaces. DIMPLES is offered in a **wide range of outputs and sizes**, for direct only or bidirectional light distribution, making it an extremely versatile lighting collection and a huge step beyond the conventional LED lit lighting panels.

## Features

- Direct emission
- UGR<16; <22
- IP 40

**FLIP** is the new and **revolutionary lighting method for spaces with 24mm visible structure suspended ceilings**. The ultra-slim linear luminaire can be arranged as desired to create light patterns, allowing designers greater creative freedom in respect to standard panels. **Controlled direct emission** ensures a low glare index (**UGR<16**) making FLIP ideal for both office lighting and general spaces. The lateral emission ensures that the luminaire uses the false ceiling as a reflective surface, to maximize visual comfort, it is **also available in PG version**, for those environments where diffused lighting is needed. **FLIP: free your creativity.**

#### Features

- Direct emission

## TECHNICAL NOTES

Thanks to the electrified connector and the side clips, installation to the false ceiling structure is immediate.

**BEN** is the **universal luminaire for wall, ceiling, suspension or recessed installation** with bodies made entirely of **aluminum**, without welding. The IP 40 version offers **both satin and microprismatic diffusers** with DPL UGR<19 technology. The mid-power LED on circular boards avoid the creation of shadow areas and are connected to the internal supports via quick connectors, for easy electrification.

## ACCESSORIES

External reflector in chromed PC.

**39RFA** - MICRO  
**39RFAMN** - MINI  
**39RFAS** - SMALL  
**39RFAM** - MEDIUM  
**39RFAL** - LARGE

External reflector in golden PC.

**39RFG** - MICRO  
**39RFGMN** - MINI  
**39RFGS** - SMALL  
**39RFGM** - MEDIUM  
**39RFGL** - LARGE

Honeycomb optics,  
UGR<16.

**39AAND** - MICRO  
**39AANDMN** - MINI  
**39AANDS** - SMALL  
**39AANDM** - MEDIUM  
**39AANDL** - LARGE

Micro-engraved optics.

**39AASL** - MICRO  
**39AASLMN** - MINI  
**39AASLS** - SMALL  
**39AASLM** - MEDIUM  
**39AASLL** - LARGE

Frosted glass.

**39AAVS** - MICRO  
**39AAVSMN** - MINI  
**39AAVSS** - SMALL  
**39AAVSM** - MEDIUM  
**39AAVSL** - LARGE

Ring for UGR<16 reduction.

**39AAUGR** - MICRO  
**39AAUGRMN** - MINI

# MAKE Q

ID 39

DL DOWNLIGHT

**MAKE Q** is the new **adjustable square base downlight** developed in different configurations: with edge, frameless, with double spot and recessed optic. Available in **micro, mini, small, medium and large sizes**, for installation from 50 to 125mm, it is particularly suitable for office and retail applications, where the light source is matched by strong and pure geometric lines.

## Features

- Direct emission
- UGR<19
- IP 44

## Led

- 3000K/4000K
- >100 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

## Specifications

- Polycarbonate lens, beam: 15°-24°-36°-50°
- Front reflector in polycarbonate

## Body

- Aluminum with epoxy powder coating

## Colors

- White RAL 9003 wrinkled - code W
- Black RAL 9005 wrinkled - code BK

## Certifications

- OE Conformity
- RETILAP Conformity
- Energy efficiency C
- 5 years warranty

## On request

- DALI - code D
- Bluetooth - code BT\*
- Emergency 1 hr - code EM
- Emergency 3 hrs - code EM3H\*
- 2700K - code K27\*
- 5000K - code K5\*

**MAKE R** is the new **swiveling and adjustable downlight**. Available in **mini, small, medium and large size**, with various diameter possibilities, it can be equipped with narrow or wide beam optics. The free **rotating body can be partially extracted and tilted** or remain completely recessed, making MAKE R extremely versatile for office, retail and all those installations that require **dynamic lighting**.

**Features**

- Direct emission
- UGR<19
- IP 44

**Led**

- 3000K/4000K
- >100 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

**Specifications**

- Polycarbonate lens, beam angles: 15°-24°-36°-50°
- Front reflector in polycarbonate

**Body**

- Aluminum with epoxy powder coating

**Colors**

- White RAL 9003 wrinkled - code W
- Black RAL 9005 wrinkled - code BK

**Certifications**

- CE Conformity
- RETILAP Conformity
- Energy efficiency C
- 5 years warranty

# HALL LED ESSENTIAL

ID 38

**HALL LED ESSENTIAL** is **perfect for retrofit applications** where price and efficacy are of equal importance. It can easily replace 18W-26W CFL downlight, with installations on 175mm to 220mm diameter holes.

## Features

- Direct emission
- UGR<19
- IP 54 visible side

## Led

- 3000K/4000K
- >145 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

## Specifications

- SMD LED technology
- Internal reflector in microcell polycarbonate
- Microprismatic opaline polycarbonate diffuser
- Cut-off>10°

## Body

- Polycarbonate, with heat sink in die-cast aluminum

## Colors

- White RAL 9003 matte - code B
- Black RAL 9005 matte - code C8

## Certifications

- CE Conformity
- RETILAP Conformity
- Energy efficiency E
- 5 years warranty

## On request

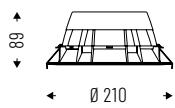

- DALI - code D
- Bluetooth - code BT\*
- Emergency 1 hr - code EM
- Emergency 3 hrs - code EM3H\*

\* Where available

# OTELLO LED

ID 45

**OTELLO LED** provides a new design and a **wide choice of versions**, to create custom recessed LED luminaires. **Simple and fast installation, maximum efficiency, symmetrical and homogeneous light distribution** are offered as standard. The choice of beam angles is made possible through interchangeable reflectors, and versions with 1 to 3 heads are available, enabling the designer to use the product for **both accent and ambient lighting**. OTELLO LED, perfect for any contemporary application.

## Features

- Direct emission
- UGR<19
- IP 40
- IK 02

## Led

## TECHNICAL NOTES

### REMOVABLE AND ADJUSTABLE SPOTLIGHTS

Thanks to 1, 2 or 3 light points and the possibility to extract and adjust the spotlights, OTELLO LED guarantees the maximum flexibility to direct the light.

**NEXT** is the **contemporary design fixture** that perfectly fits in those architectural contexts where sober and minimal shapes are required. It is available as indoor versions for ceiling, recessed or recessed frameless installation, **with controlled UGR optics (<16)**.

**Features**

- Direct emission
- Direct/indirect emission
- UGR<16
- IP 40

**Led**

- 3000K/4000K
- >80 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

**Specifications**

- Built-in driver
- SMD LED technology
- High Contrast UGR<16 diffuser
- Impact resistant satin acrylic diffuser with perimeter screen printing
- Aluminum frame with sealing gasket
- Homogeneous emission with UGR<22

**Body**

- Die-cast aluminum with epoxy powder coating

**Colors**

- White RAL 9003 wrinkled - code W
- Black RAL 9005 wrinkled - code BK

**Certifications**

- OE Conformity
- RETILAP Conformity
- Energy efficiency E
- 5 years warranty

**Related products**

# HALL LED CEILING EVO

ID 28

**HALL LED CEILING EVO** is the downlight solution for ceiling application, available in four sizes: **mini, small, medium, large** and different outputs, in order to satisfy all lighting requirements. A further advantage is given by the degree of protection **IP 44** and the available range of optics. Chip on board technology and integrated driver offer high efficiency and simple installation.

## Features

- Direct emission
- UGR<19
- IP 44

## Led

- 3000K/4000K
- >135 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

## Specifications

- Built-in driver
- CoB LED technology
- MINI: aluminum internal reflectors - beam angles: 15°-20°-36°-50°
- SMALL: aluminum internal reflectors - beam angles: 10°-20°-40°-50°
- MEDIUM/LARGE: aluminum internal reflectors - beam angles: 10°-12°-20°-40°-70°

## Body

- Die-cast aluminum with epoxy powder coating

## Colors

- White RAL 9003 wrinkled - code W
- Black RAL 9005 wrinkled - code BK

## Certifications

- CE Conformity
- RETILAP Conformity
- ETL Conformity
- Energy efficiency F
- 5 years warranty

# EUROSTANDARD TRACK

ID 15

**EUROSTANDARD TRACK** can be selected for either non-dimmable spotlights or applications needing bluetooth control. **The EUROSTANDARD PLUS TRACK DALI** has an extra 2 conductors for use in DALI applications and is also offered in a **H-section version**, which can be used to add uplighting. All versions come in different lengths with mounting options which include **direct, recessed, recessed trimless and suspended installation**. The comprehensive range of compatible products and accessories complete this versatile product.

## ⊕ Specifications

- The conductors are integrated in the track by means of rigid extruded profile made from insulating material guaranteeing high dielectric strength
- The 3 separate circuits consisting of 3 phase conductors and a common neutral allow for 3 lighting configurations to be switched individually
- The 3-phase supply allows for an overall loading of 16A (10500 VA) which can be divided among the 3 circuits (3x3500 VA)
- The earth, positioned on the side, leads to an asymmetrical structure of the track. As a consequence couplers must be selected carefully

## □ Body

- Aluminum

## ⊕ Colors

# LV TRACK

ID 15

**LV TRACK** is suitable for all **Esse-Ci 48V LV lighting fixtures**. The track is available in three versions for **surface, recessed and suspended applications**. Each track boasts minimal dimensions for an absolutely discrete installation effect. A wide range of accessories complements each track style. Being SELV, rapid and safe coupling of luminaires is possible. Esse-Ci LV TRACK promotes optimum **flexibility and minimalism without compromising performance**.

ID 14

With a distinctly **architectural vocation**, TERES PRO represents the latest and most **sophisticated inspiration for spotlight with a compact and slim body** equipped with a driver completely hidden into the track. The **TERES PRO ZOOM** version thanks to the **adjustable light beam** is the best solution when flexibility is required to enlighten spaces and objects modifying the accent light to wide beam by a simple touch. The **PRO ART** version responds to the demanding lighting **requirements of museum and exhibition spaces**: the gobos allow you to design clearly and precisely geometrical rays lights, perfect to enhance sculptures and paintings.

## Features

- Direct emission
- UGR<19
- IP 40

## Led

- 3000K/4000K
- >113 lm/W
- CRI>90/CRI>95
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

## Specifications

- In track driver
- CoB LED technology
- PC lens 15°-24°-36°-50°
- ZOOM lens from 25° to 60°

## Body

- Die-cast aluminum with epoxy powder coating

## Colors

- White RAL 9003 wrinkled - code W
- Black RAL 9005 wrinkled - code BK

## Certifications

- CE Conformity
- Energy efficiency E
- 5 years warranty
- ETL Certification

## TECHNICAL NOTES

For a better application of **TERES PRO ART**, table below, we indicate the suggested diameter or area of the gobos considering the different lens and distance from spot light and masterpiece to be illuminated.

Distance	Shape	Distance			
		1m	2m	3m	4m
		25°	Ø 37cm	Ø 80cm	Ø 124cm
		36°	Ø 60cm	Ø 120cm	Ø 185cm
		25°	□ 26x26cm	□ 57x57cm	□ 88x88cm
		36°	□ 42x42cm	□ 86x86cm	□ 131x131cm

**TERES** is the **sophisticated and professional track spot** that, thanks to the **built-in driver**, compact design and advanced technology, has managed to hit the spot in the retail world, adapting completely to any environment without being invasive. Its **technical vocation** is also suitable for areas that need more decisive lighting thanks to the **High Flux version, with efficiencies up to 110lm/W**. The **Wall Washer** version with asymmetrical beam and the new **HF FOOD version**, dedicated to the best color rendering of food, complete a range that has now become the **reference point in the world of spotlights**.

**Features**

## SPECIALIZED LED MODULES - FOOD

Premium CRI>90 luminaires with 3000K and 4000K color temperatures that enhance the color of natural products and are therefore suitable for the lighting of fruits, vegetables and food departments:

- **BREAD:** brown shades appear sharper and brighter, with golden reflexes. Cheeses and other ingredients used in baked goods such as pizza and sandwiches get enhanced in their colors.
- **MEAT/FRESH MEAT:** red tones are extraordinarily stronger, for a fresh and inviting presentation of red and cured meats.
- **FISH:** colors are lively and attractive, the fish looks bright and colorful; the cold shades of light enhance the freshness and brilliance of the fish.

# TERES EXTE

ID 14

Differentiation is a factor of success: versatility is an important aspect in the world of lighting. This is how **TERES EXTE** was born from the **TERES family**, allowing the luminaire to be applied as a **stand alone fixture**, for both surface or recessed installation. With the driver integrated inside the body, it fits to any situation thanks to the minimal design and purity of shapes. The **TERES EXTE COVE** version can also be installed as a free-standing luminaire on cornices or perimeter coves.

**QI** is an exciting lighting concept set to **revolutionize the way designers consider traditional 3-circuit lighting track applications**. Perfect for retrofit or new designs, QI fits seamlessly within regular EU tracks. The types of applications are only restricted by the designers imagination, its **wide range of power and outputs, integrated driver**, choice of beam angles including asymmetric light distribution, make QI perfect for retail, museum, educational and commercial projects, just to name but a few.

**☒ Features**

- Direct emission
- UGR<22
- IP 40

**☒ Led**

- 3000K/4000K

## TECHNICAL NOTES

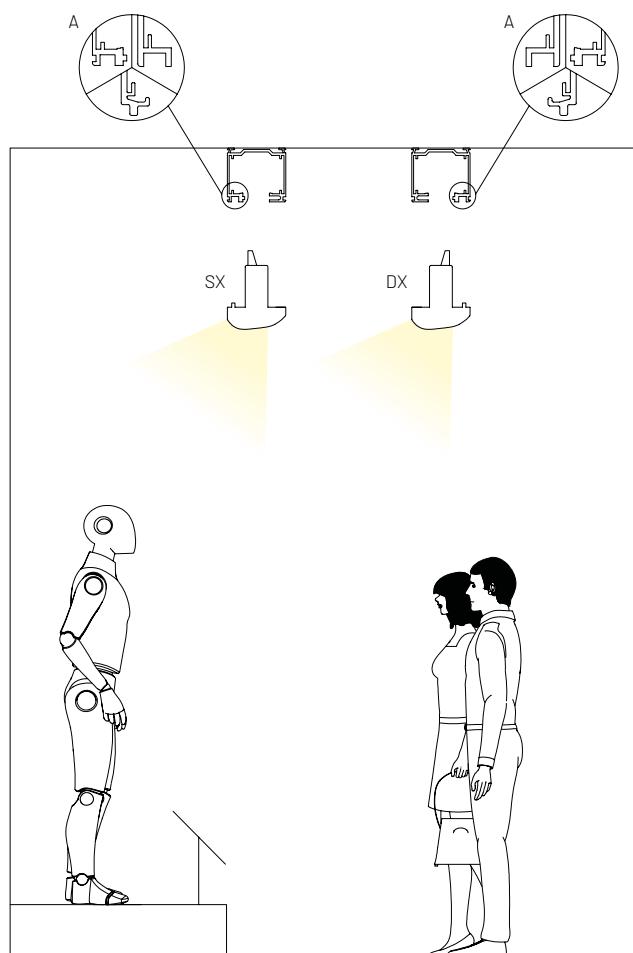

### QI APPLICATION ON TRACK

### QI AS APPLICATION ON EXISTING TRACK

In case of installation of QI AS on existing tracks, it is necessary to pay attention to the use of the right or left version of the devices, in order to direct the asymmetrical flow correctly.

The particular «A» of the track must be identified and consequently the luminaire should be chosen between: QI AS-SX or QI AS-DX.

# GHOSTFEED 2.0

ID 15

**GHOSTFEED 2.0** is the new **single-cable system** that, with a minimal installation impact, is able to create continuous **lines of light extending up to fifteen meters**. The special tensioners require only two anchoring points, thus finding space even in those architectural solutions where the presence of the light source must be particularly discreet. **The low voltage system of GHOSTFEED 2.0** allows the installation of **LED strips for direct and indirect light**; further versatility is conferred by accessories such as **diffusing optics, blind modules** and adjustable **micro-spots for accent lighting**.

## Features

- Direct/indirect emission
- UGR<22
- IP 40

## Led

- 2700K/3000K/4000K
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

## Specifications

- Remote driver
- Diffuser in satin methacrylate for direct/indirect emission

## Body

- Steel sheet with epoxy powders coating

## Colors

- White wrinkled matte RAL 9003 - code W
- Black RAL 9005 matte - code BK

## Certifications

- CE Conformity
- BIS Conformity
- RETILAP Conformity
- Energy efficiency E
- 5 years warranty

## TECHNICAL NOTES

### AVAILABLE CONFIGURATIONS

WALL  
FLOOR

**MONOD** is the new, **exclusive product** created in collaboration with Cornelissen studio for a **concept of transversal and fluid office, in which each work station can be modified and adapted** to situations in continuous progress: MONOD, in fact, in the **table or floor version**, allows to manage at will the light sources, both direct and indirect, choosing between different fixtures to be applied at will to the **horizontal low voltage track**. The indirect emission is guaranteed by the top spot embedded in the stem in which there are also the **touch button for switching the light and a USB port**.

**Features**

- Direct emission
- Direct/indirect emission
- UGR<19; <22
- IP 40

**Led**

- 3000K/4000K
- >94 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

**Specifications**

- Built-in driver
- Indirect emission with aluminum reflector. Beam angle 50°
- Emission direct/indirect to be ordered separately among the compatible light sources

**Body**

- Aluminum with epoxy powder coating

**Colors**

- White RAL 9003 wrinkled - code W
- Black RAL 9005 wrinkled - code BK

53SL1200K3	10W	763	1200
53SL1410K3	12W	897	1410

## TECHNICAL NOTES

**UPLIK** is a wall mounting fixture that, with its **simple and clean lines** fits perfectly in any environment. The **different emissions, power, sizes** and bright packages offer a very **wide range of solutions** to meet any lighting requirement. UPLIK is also available in the floor version for lighting in working environments thanks to DPL technology diffuser with UGR<19.

**Features**

- Direct emission
- Direct/indirect emission
- UGR<19; <22
- IP 40

**Led**

- 3000K/4000K
- >85 lm/W
- CRI>90
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B20 >80.000h

**Specifications**

- Built-in driver
- PG diffuser for homogeneous emission UGR<22
- Diffuser with Indirect Light Control (ILC) technology, to favor indirect lighting
- DPL technology diffuser, with controlled UGR<19 for floor version
- Double emission: direct/indirect

**Body**

- Aluminum with epoxy powder coating

**Colors**

- White RAL 9003 - code B

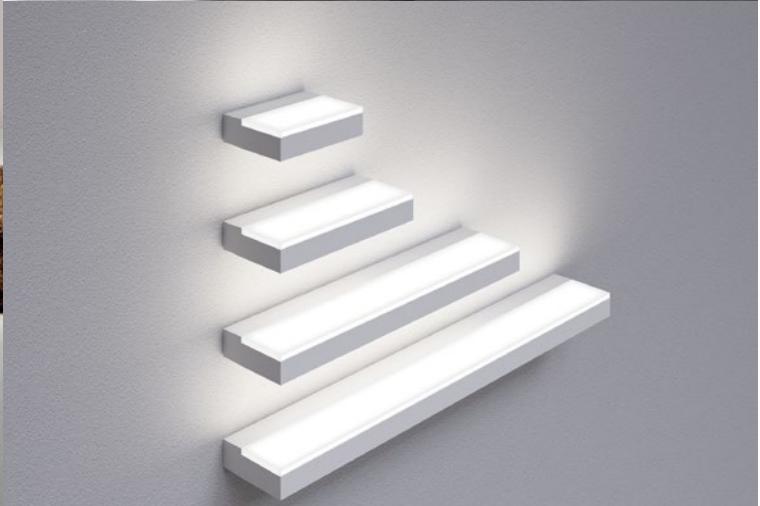

**Certifications**

- CE Conformity
- RETILAP Conformity
- For version LP - HP energy efficiency C
- For version XP energy efficiency D
- 5 years warranty

**On request**

- DALI - code D\*
- Emergency 1 hr - code EM
- Emergency 3 hrs - code EM3H\*
- 2700K - code K27\*
- 5000K - code K5\*

# ARKEON WALL

ID 46

**ARKEON WALL** is designed to perfectly compliment the main ARKEON collection, to ensure specifiers a complete product portfolio to complete any design project. It features the same **minimal dimensions and aesthetic cleanliness**, but it is created specifically as a versatile wall fixture. The **numerous sizes** and range flexibility make it **perfect to illuminate** circulation spaces such as **corridors, stairwells and landings**, for any project type including commercial, hospitality, education and health care.

## Features

- Direct emission
- Direct/indirect emission
- UGR<22

**ERGO** is the LED luminaire for **indoor use in the industrial, commercial or sport fields**, with single-lens polycarbonate optics for a precise direction of the luminous flux and a wide range of accessories for **ceiling, suspension, wall or recessed application**. ERGO is designed with the objectives of **energy saving, zero maintenance and pollution reduction**, thanks to the controlled CO<sub>2</sub> emissions. Equipped with **built-in driver** and power supply cable, it is already set up with twin circuit wiring as standard.

# ERGO ESSENTIAL

ID 02

**ERGO ESSENTIAL** is the **high bay luminaire** designed for interiors of **industrial environments, warehouses, supermarkets and exhibition halls**. The die-cast aluminum body is characterized by fins for heat dissipation that allow air flows to enter and exit from every direction, guaranteeing an effective cooling. ERGO ESSENTIAL polycarbonate lens diffuses the light generated by the individual LEDs with a delicate beam, creating harmonious lighting. Thanks to the special accessories it **can be suspended, ceiling or wall-mounted**.

## TECHNICAL NOTES

### INDOOR/OUTDOOR INSTALLATION

Not suitable for outdoor applications.  
To be installed in indoor or covered outdoor areas.

**STILLA** is a **highly technical IP rated fixture** that features performance optics, making it extremely useful for large open plan areas such as **warehousing, transport depots** and **manufacturing plants**, as well as in **retail applications** that require high brightness artificial lighting with good colour quality. The body is manufactured from extruded aluminium for optimum thermal management and it is sealed against moisture and dust ingress to IP65. **Dimmable and emergency** options are also available, making STILLA perfect for use with **lighting control systems**, where optimum efficiency and energy savings are desire.

**Features**

- Direct emission
- UGR<22
- IP 65
- IK 08
- -25°/+45°

**05AA1330**

Spacers kit for ceiling mount.

**05AA14**

Bracket for continuous rows installation, length 1500mm.

**05AA11**

Brackets kit for wall installation.

**05AA15**

Transparent protective glass.

**05AAVTS** 1161mm  
**05AAVTL** 1441mm

## TECHNICAL NOTES

### EXAMPLE OF INSTALLATION IN A CONTINUOUS ROWS WITH ACCESSORY 05AA11

Thanks to the 05AA11 accessory you can install the devices in suspended continuous line by avoiding the use of busbars or cable raceways. This bracket serves as the mechanical joining, allows the masking of the connection cable between two devices and reduces the suspension points. It is click fixed on the devices and can be cut at the construction site.

# GROOVE IP54

ID 43

**GROOVE IP54** is specifically designed for applications that demand high ingress protection against dust and moisture: it can be installed either as a **single luminaire**, or in **continuous rows**, making it ideal for **industrial and commercial applications**, even in protected outdoors. The aluminum body and the flexible diffuser with coextruded gaskets allows designers to freely create stunning solutions, while guaranteeing **maximum performance and a high degree of protection**.

# ARKEON MED    FREE

In its FREE version, ARKEON MED meets the most varied customization needs, offering countless configuration possibilities, adapting to different design and functional needs.

**LED MODULES AND OPTICS**

**BLIND MODULES**

**BODY**

Pre-wired aluminum body, available lengths from 900mm to 4000mm. Standard colors: black, white - customizable on request.

**BLIND MODULES**

Blind module in painted roll adaptable to size on site.

**DIRECT LED MODULE**

Direct light LED module with asymmetrical optics, 3000K/4000K/HCL.

**INDIRECT LED MODULE**

Indirect light LED module with soft light diffuser 3000K/4000K/HCL (reading/general).

**SPOT LED MODULE**

Spot module with adjustable beam lens from 10° to 40°.

**SOCKET/SWITCHES**

Bypass socket 2P+E 10/16A - universal socket - USB socket switch - two-pole switch - push button.

**COMMAND**

Tie rod for assistance call.

**COMMAND**

24V control panel with 2/3 buttons (reading light, direct light, assistance call) with L 2000mm cable.

**APP**

BT system for management with free App.

# HALL LED IP67

ID 38

**HALL LED IP67** is the **new solution in the HALL LED family** that combines elegant visual impact with outstanding **waterproof and anti-condensation performances**. HALL LED IP67 is suitable for installation on the ground or on concrete. The two available bodies, Pico and Micro, can be combined with transparent glass with PC lens (16°-24°-36° beam angle) **for scenographic accent lighting or with matt glass** to create a soft, diffused light.

## Features

- IP 67
- IK 10
- -20° C/+40° C
- 20 KN

## Led

- 3000K
- >115 lm/W
- CRI >80
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

## Specifications

- CoB LED technology
- PC lens 16°-24°-36°-50° or broad emission

## Body

- Aluminum with epoxy powder coating

## Colors

- Stainless steel

## Certifications

- CE Conformity
- Energy efficiency F
- 5 years warranty

## On request

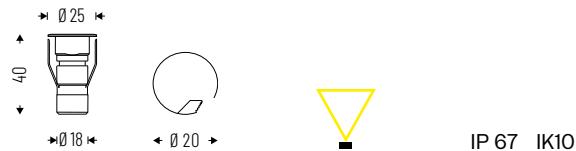

- DALI - code D\*
- 4000K - code K4\*

\* Where available

## HALL LED IP67 PICO ACCENT LIGHT

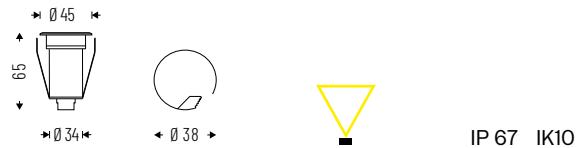

Transparent glass with PC lens beam angle 16°-24°-36°.  
1000mm cable with connector. Without driver.

# WALKABOUT

ID 93

**WALKABOUT** is the **linear solution** capable of highlighting architectural shapes and textures. Both in the **walk-over version, recessed into the ground, and in the wall or ceiling version**, it has the highest degree of protection (**IP 67**) while the special optics concentrate the luminous flux in a **narrow beam**, even in the **asymmetric version**. The possibility of connecting different length modules of WALKABOUT allows to **create continuous light lines, both on the ground and on the façade**, adapting to different architectural solutions in the outdoor environment.

## Features

- Direct emission
- IP 67

## TECHNICAL NOTES

### GROUND INSTALLATION WITH WALKABLE OUTER CASING FOR WALKABOUT GROUND AND WALKABOUT GROUND FC MODEL

Thanks to a refined combination of materials and light emission **KERI gives originality to the cylinder**, the traditional shape of architectural outdoor lighting. The efficient lighting source offers a delicate indirect emission thanks to a reflector that collects the light and spread it through a satin glass. It is possible to **combined this smooth indirect light** with a **defined direct beam** thanks to a split on the base which also frees the downlight core for new vibrant lights. As **ceiling, wall and pendant light**, KERI is available in **two different sizes** with a modern decorative shade that gives personality to further play of light.

#### Features

- Direct emission
- Direct/indirect emission
- IP 65

Indirect soft emission

# HALL LED CEILING IP65

ID 28

**HALL LED CEILING IP65** extends HALL collection for external use with a **high performance downlight**, characterized by a minimal die-cast aluminum housing in a durable matt textured power coated finish. As standard the range features **integrated drivers** making the product both **simple to install and compact in size**. The high ingress protection rating of IP65 makes this an ideal product for any wet area application including the outdoor environment.

## Features

- Direct emission

# TERES IP66

ID 14

Perfectly complementing the already extensive TERES interiors collection, **TERES IP66 high ingress protection rating makes it perfect for outdoor environment, gardens, planters and accent lighting for signs and architecture.** The **built-in driver** and the dedicated connection compartment ensure the product is easy to install. The range of beam angles and graduated pointing system is designed for easy and precise focusing. The product can either be mounted directly on surfaces or attached to a spike mount, for a more flexible ground installation.

Holes for the rainwater drainage.

**CLOU** enlarges with **unlimited creative solutions the outdoor light**. A **bollard**, **wall** or **ceiling** element, CLOU is designed to illuminate green areas and semi-open spaces with a modern and brilliant design. The structure is composed by an extruded petal profile with three grooves, where you can install silicone strip that, combined with spots, grant you to play in an amazing way with the light. Moreover, an overlapping junction can be applied to CLOU body to allow you to **create a dynamic weaving profile with different directions in the space** to obtain an even more refined and **personalized lighting composition**.

## TECHNICAL NOTES

Clou can be used as garden light with different lenght.

Can combine spotlight with diffused light.

**GLEIS** is the **adjustable direct-indirect emission** outdoor wall luminaire. Thanks to **two rotating elements**, perfectly integrated within its body and the **high-performance concentrating optics**, the light flux can be flexibly oriented to create different light effects. With an extremely compact body and a modern and minimal design available in different colors, GLEIS integrates perfectly into any environment. **From Wall Washer to spotlight with a touch:** GLEIS is the perfect solution to flexibly illuminate walls and passageways in outdoor environments at the same time.

#### **Features**

## TECHNICAL NOTES

### ROTATING ELEMENTS ADJUSTMENT

The concentrating optics, mounted on rotating elements, allow the luminous flux to be directed independently by 90 degrees towards the wall - for a Wall Washer effect - or towards the outside - with a spotlight function - to illuminate walls, paths or areas at the same time passing.

**NOBIS's** family is designed for **wall and ceiling installation**, declined also **in bollard, ground, semi-recessed and USB versions**. The sliding optical system allows to direct the beam and thanks to the **endless possibilities of colors** of the cover this family is the ideal solution in every context.

**Features**

- Direct emission
- IP 66
- IK 07
- -20°/+40°

**Led**

# MAGIS FLOOD

ID 92

**MAGIS FLOOD** is a range of indoor and outdoor **IP66 luminaires designed for use in ambitious sports or large areas**. The wide range of optics, combined with the wide range of powers, makes it an extremely versatile floodlight.

## Features

- Direct emission
- IP 66
- IK 08
- -30°/+45°

## Led

- 4000K
- >125 lm/W
- CRI >80
- Eye safety: RG0/RG1
- Mac Adams 3
- L80/B10 >50.000h

## Specifications

- Built-in driver
- NBE: concentrating polycarbonate lens
- WBE: diffusing polycarbonate lens
- AS: polycarbonate lens with asymmetrical emission
- HW: polycarbonate lens with intensive asymmetric emission

## Body

- Die cast aluminum with epoxy powder coating

## Colors

- Double color:  
Light grey RAL 7035/Black RAL 9017
- One color:  
Black RAL 9017 - code BK

## On request

- DALI - code D
- 3000K - code K3\*
- 5000K - code K5\*

## Certifications

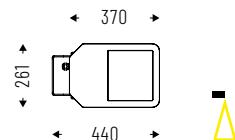

- CE Conformity
- Energy efficiency D
- 5 years warranty

\* Where available

## MAGIS FLOOD MEDIUM NBE

Polycarbonate lens with narrow emission.

# LIGHT MANAGEMENT \_

**Lighting fixtures are increasingly technological** and at the service of the user. Thanks to modern light management systems that also allow information retrieval, the **luminaires** become part of a plant infrastructure that **help us save energy, improve comfort and “map” the system** by interacting with its users. **Esse-Ci has developed light management solutions** that can be installed independently (stand alone) and connected (wired or wireless) or solutions totally integrated into the luminaires.

---

## MANAGEMENT SYSTEMS

### ON/OFF PRESENCE SENSOR

High quality **stand alone on/off sensor for presence control** in semi-automatic mode. It includes an intelligent photocell to prevent power-on when natural light is available.

Thanks to the **remote control** it is possible **to set and memorize different programs**.

INTERFACE	WIRING	TARGET	FEATURES	
DIMKIT-28	Wired	Offices/schools Small and medium areas	<ul style="list-style-type: none"> <li>• Manual</li> <li>• Presence</li> </ul>	<ul style="list-style-type: none"> <li>• Natural light sensor</li> <li>• Programmable</li> </ul>

### DALI-2

The **DALI/DALI-2 protocol** allows **maximum flexibility and adaptability** in lighting control via software, without

modifying the hardware. The devices can be easily managed even after installation, allowing the automation of the system.

INTERFACE	WIRING	TARGET	FEATURES	
DALI BASIC Switch-dim link	Wired	Offices/schools Small and medium areas	<ul style="list-style-type: none"> <li>• Manual</li> </ul>	<ul style="list-style-type: none"> <li>• Up to 35 devices</li> </ul>
DIMKIT-13	Wired	Offices/schools Small and medium areas	<ul style="list-style-type: none"> <li>• Manual</li> <li>• Presence</li> </ul>	<ul style="list-style-type: none"> <li>• Constant light</li> <li>• Up to 20 DALI addresses on 2 channels (10+10) with offset functionality</li> </ul>

### BLUETOOTH CASAMBI

**Bluetooth on Casambi standard** allows to manage the **network of devices or wireless sensors** (eg presence/light sensors) through a **remote control from the app**. The same network can contain **127 nodes**, with the possibility of controlling multiple networks simultaneously. Each node can

talk to another in the **BT coverage area up to a maximum of 50m**. **System security** is guaranteed by encrypted protocols between the individual Casambi units. Each request is based on user privileges and is uniquely authenticated between smartphones/tablets and Casambi devices.

INTERFACE	WIRING	TARGET	FEATURES	
DIMKIT BT	Wireless	Offices/schools Small and medium areas	<ul style="list-style-type: none"> <li>• Manual</li> <li>• Presence</li> <li>• Constant light</li> </ul>	<ul style="list-style-type: none"> <li>• With free dedicated iOS and Android management app</li> <li>• Up to 127 nodal points</li> </ul>

### HCL: HUMAN CENTRIC LIGHT

Latest generation **tunable white LED technology** allows the management of **adjustable color temperatures** along the Planck curve, from **2700K to 6500K**, from a warm light to a cold light. The **HCL system reproduces**

**the natural rhythms of light** in every interior space, resulting in numerous benefits for the human body: regularization of the biorhythm, improved mood and increased productivity.

INTERFACE	WIRING	TARGET	FEATURES	
DIMKIT HCL-BT	Wired	Offices, schools, retail, hospitals	<ul style="list-style-type: none"> <li>• Manual</li> <li>• Presence</li> <li>• Constant light</li> </ul>	<ul style="list-style-type: none"> <li>• With free dedicated management app for iOS</li> <li>• Up to 40 addresses DALI dt8</li> </ul>

# DIMKIT-28 ON/OFF PRESENCE SENSOR

## DIMKIT-28 includes a high quality stand alone

**on/off sensor** designed for presence control in semi-automatic mode. The intelligent photocell prevents power-on when natural light is available. The **setting** and adjustment of the sensor are carried out using a **remote control**, which allows to store common settings for multiple devices. For recessed or ceiling installation.

DIMKIT28PROG

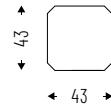

# DALI BASIC SWITCH-DIM CONNECTION

**DALI BASIC** is a dimmer with push button control for LED fixtures via DALI/DALI-2 protocol for dimming from **1 to 100%**. The control unit allows to control a maximum of **35 dimmable** fixtures via button. Connected directly to the button, it allows the following functions:

- a short press to turn on and off
- a long press to increase or decrease the light intensity.

IP 20

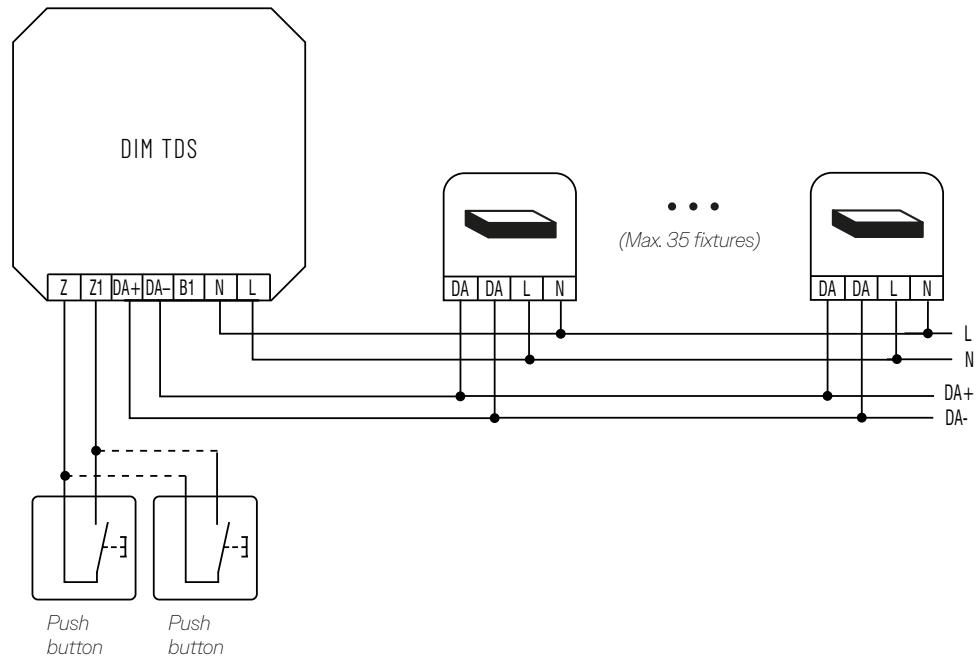

Cod.

DIMTDS

## TECHNICAL NOTES

CONNECTION DIAGRAM

# DIMKIT-13

**DIMKIT-13 includes a sensor for automatic adjustment with constant light function, presence detection and push button control of up to 20 DALI drivers.** An easy to use and affordable automatic light management system with motion detector. It controls **two groups of up to 10 DALI** addresses each and allows the **management of the offset between groups 1 and 2**.

When the sensor detects a movement, it activates a profile and activates the fixtures, which automatically adjust according to natural light. Connected devices can also be turned on and off with a button or optional remote control.

**To program the system a DIMILD2PROG infrared programmer is requested.**

# DIMKIT-BT

## DIMKIT-BT allows control via Casambi Ready

**Bluetooth protocol with wireless system.** It allows to adjust lighting according to ambient light and presence detection. It can also be managed wirelessly **via Android and iOS** devices as it automatically forms a wireless communication network of **up to 250 nodes**. Powered by the mains, it can be installed recessed or on the ceiling, using the relative accessories. The sensors feature passive **infrared technology** with shutters included, to optimize the detection area of the sensor according to different schemes.

**DIMTBT**

# DIMKIT HCL-BT

**DIMKIT HCL-BT** is an intelligent sensor that performs **PIR detection, daylight and automatic color temperature** control functions. With the **free app**, you can set latitude, date and time and call up one of the nine preset profiles for changing color temperature and brightness, depending on the context of use, or by creating a completely customized one. The **master sensor** controls up to **40 DALI devices and slave sensors**. The manual Bluetooth wall controls **HCLBTTD** can also be integrated.

## STAND-ALONE ELEMENTS DALI

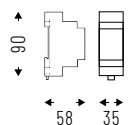

### DALI PROTOCOL

In light management, the **Digital Addressable Lighting Interface, DALI communication protocol** is a standard for controlling lighting equipment. For **each DALI line** it is possible to control **up to 64 addresses and/or 16 groups**, managed **by button interfaces and/or PIR/daylight sensors** which, thanks to the programming of a specialized technician, allow greater lighting comfort in the workplace.

### DIMAS

The **DIMAS power supply** is a **DALI compatible power supply module**, necessary to provide the control system with a power supply of 250mA. The power supply must be **mounted on a DIN rail**. Status LED lights up when powered.

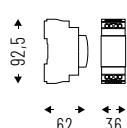

Cod.

DIMAS

### DIMRM301CH

**DALI overvoltage protected relay, compatible with DALI/DALI-2 protocols**, with 1-channel actuator (switch) with DALI-2 input. Small in size, it is suitable for panel **mounting on a standard DIN rail**.

Cod.

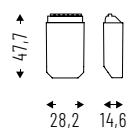

DIMRM301CH

## STAND-ALONE ELEMENTS DALI

### DIMXC

**DALI push button interface with 4 independent inputs** for potential-free contacts.  
Designed for the connection of **momentary action switches or push-buttons**. Operating mode and flow rate adjustable by means of 2 rotary selectors. 250mm cables included.

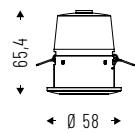

Cod.

DIMXC

### SENSDR

**Recessed multi sensor for small and medium-sized areas. PIR motion detection with ambient light** control is powered via **DALI Bus**. Individual adjustment of parameters with software configuration.

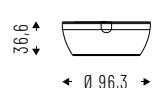

Cod.

SENSDR

### SENSDP

**Ceiling mounted multi sensor for small and medium-sized areas. PIR motion detection with ambient light** control is powered via **DALI Bus**. Individual adjustment of parameters with software configuration.

Cod.

SENSDP

## STAND-ALONE ELEMENTS DALI-2

### DALI-2 PROTOCOL

The **DALI-2** standard is the evolution of the DALI protocol, with the advantage of total **compatibility with the previous version**. It is possible to use DALI-2 drivers in lighting systems with DALI standards, just as it is possible to use DALI-2 modules or sensors combined with DALI drivers with the addition of new functions and applications for emergency lighting and color management.

### DIMAS3

**DALI-2 compatible power module**, necessary to provide the control system with a 70mA power supply. The **excellent scalability** allows you to connect up to two DIMAS3 in each DALI-2 installation. The compact dimensions allow integration both in switchboard and in 503 box.

### DIMRM301CH

**DALI overvoltage protected relay**, compatible with **DALI/DALI-2 protocols**, with 1-channel actuator (switch) with DALI-2 input. Small in size, it is suitable for panel mounting on a standard DIN rail.

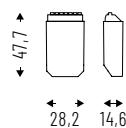

## STAND-ALONE ELEMENTS DALI-2

### DIMXC2

#### DALI-2 push button interface with 4 independent

**inputs for potential-free contacts.** Designed for

connecting standard momentary action switches or push buttons. Compatible with all DALI-2 certified Application Controllers for lighting control (not compatible with the DIMKIT-I3 system). 250mm cables included.

Cod.

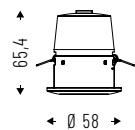

DIMXC2

### SENSD2R

#### Recessed multi sensor for small and medium-

**sized areas.** PIR motion detection with ambient light control is powered via **DALI-2 Bus**. Individual adjustment of parameters with software configuration.

Cod.

SENSD2R

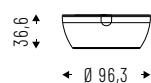

### SENSD2P

#### Ceiling mounted multi sensor for small and

**medium-sized areas. PIR motion detection**

**with ambient light** control is powered via DALI-2 Bus. Individual adjustment of parameters with software configuration.

Cod.

SENSD2P

## STAND-ALONE ELEMENTS

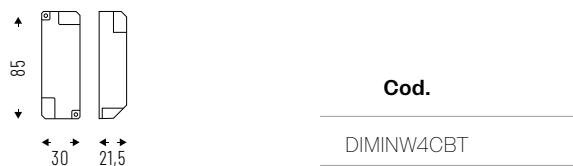

### BLUETOOTH CASAMBI PROTOCOL

The Bluetooth-Casambi protocol allows to manage fixtures on the network through remote control from a dedicated app or through wireless sensors. The network can contain multiple nodes: each node can communicate with another within the bluetooth coverage area, up to a maximum distance of 50m. The safety of the system is guaranteed by encrypted protocols between individual Casambi units. All requests between devices are based on the user's network privileges and are uniquely authenticated.

### DIMINW4CBT

**Interface capable of converting the Wireless-Casambi DALI or 1-10V signal.** Manages up to **40 devices** on **4 channels** in broadcast mode and communicates with **DALI DT6 devices**.

**GROOVE** MEYER HEALTH CAMPUS - FIRENZE

Dare to be
